APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 44052 is issued subject to the terms and conditions imposed in said Permit 44052, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

No perforations shall be put in the production casing from ground level to 100 feet.

The total combined duty of water under Permits 44052, 44056, 46346, 47341, 50078, 50079, 50080, 50243, 51464, 51809 and 51810 shall not exceed 587.8 million gallons annually, the total combined diversion rates of Permits 44052, 44056, 46346, 47341, 50078, 50079, 50080, 50243, 51464, 51809 and 51810 shall not exceed 6.0 cfs.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 235.906 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before OCTOBER 23, 1988

Proof of completion of work shall be filed before NOVEMBER 23, 1988

Application of water to beneficial use shall be made on or before OCTOBER 23, 1992

Proof of the application of water to beneficial use shall be filed on or before NOVEMBER 23, 1992

## Permit Terms Continued

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The permit is subject to the following conditions:

That the permittee

- 1) Develop a monitoring program within three months acceptable to the State Engineer both for surface water and groundwater monitoring,
- 2) Submit a report to the State Engineer on a monthly basis which contains all surface water and groundwater measurements and water use data from each well.

The State Engineer retains the right to impose further conditions as necessary upon review and evaluation of data submitted as a result of the monitoring program.

This permit will expire at the termination of the Rain Project but will not exceed eight years from the date of issuance of this permit.
